

Egton CE VA Primary School

Sports Premium Funding Information

It is an Ofsted requirement that we provide information about the Sports Premium Funding allocation in our school and how we choose to use it.

Sports Premium Funding is an additional amount schools receive from the government to improve the quality of the PE and Sport activities that schools offer their pupils.

In 2014-15 Egton School received £7640

How we spend our funding is detailed in the table below:

Activity	Cost	Impact
Transport to enable children and staff to join with Whitby Area Primary Schools in football, netball, cricket, multi-skills, gymnastics, orienteering, hockey, athletics and tag rugby activities, training and tournaments	£625.00	Increased participation in competitive sport engaging with Whitby School Sports Association. ALL children participated in a variety of competitive sports including children with disability and significant SEN. For a small school we were remarkably successful in some events e.g. winning the area Y3/4 boys football. We noticed a significant number of children joined external sports clubs as a result of their experience.
Skip to Be Fit day	£602.00	Enjoyed by staff, parents and children improving attitudes of those less enthusiastic about competitive sports. Contributed to the fitness and personal health and well-being of all ages! Charismatic trainer had significant impact on the messages that the children received and retained about staying healthy and fit.
Subscription to CLOK (orienteering club)	£30.00	To enable participation in competitive orienteering for all KS2 students. Impacted on personal fitness.
School's Contribution to Local Schools Sports Partnership	£208.00	To allow access to competitions, training and tournaments held locally. Enabled all children in school to take part in events promoting healthy lifestyle and enjoyment.

Additional PE coaching and staff training for whole school	£2,675.00	<p>Qualified sports coaches delivering high quality teaching and training in school raising achievement in PE in all year groups.</p> <p>Coaches supporting TA's and Teachers who have identified a need for further PE training impacting on the quality of school provision and improving staff subject knowledge.</p>
Course Entry, Transport and staff training to enable members of the Junior class to participate in Geocaching Activities	£213.45	Part of an RE leadership project for Y5/6 which improved attitudes to our community and personal health, well-being and enjoyment. The children's enthusiasm then involved wider family members in getting active too as an unexpected impact.
Transport to enable whole school to benefit from swimming lessons for the whole academic year instead of one year group per term	£942.00	<p>Raised achievement in swimming in all year groups and ultimately the standards by the end of KS2. All Year 6 children leave our school able to swim at least 25 metres. Many children join the local swimming club as a result of our emphasis on swimming.</p> <p>The impact on personal safety is particularly important given our locality to fast flowing rivers and the sea.</p>
Hire of Swimming Pool, staff training and extra instructors (to enable as above)	£1,806.59	As above
Contribution to Peat Rigg Visit	£740.33	<p>Provision of outdoor and adventurous pursuits has impacted on children's social skills, attitudes, teamwork, well-being and confidence.</p> <p>Helped children to develop an awareness of physical fitness.</p> <p>Partnership project with other local schools.</p>
<p>Achievement Statement:</p> <p>By the end of academic year 2014-15, 92% of children in our school were working at the expected level or above for their age group. 55% were assessed as working above their expected age group level.</p>		

If you would like to discuss this further please do contact the school and ask to speak to the headteacher.
